### Keep-Cozy Guide: Best Slippers

The Good Housekeeping Research Institute tested 44 pairs of slippers to find out which ones will keep you the coziest this winter. [Find the full results of our test here!](#)

**Buzz up!**

What is this?

Coming home and slipping into a cozy pair of slippers is one of life's simple pleasures. But which ones are warmest? Which will wear best and last longest? Lots of pairs look nice when new but, over time, pill or lose their cushioning. The textile experts at the Good Housekeeping Research Institute evaluated 44 pairs of women's slippers in six different styles: scuffs (or open-back slippers), ballet slippers, booties, boots, moccasins, and slipper socks to determine which are tops.

These warm, cozy suede slippers can be worn indoors and outside, thanks to their indoor/outdoor sole, which also performed well on compression tests. To note: This slipper runs small, so you may want to size up when buying. In three colors: pink, dusty brown, and tan. Sizes: 5 to 11, whole sizes only. ([moccasinhouse.com](http://moccasinhouse.com))

**Pros:**

- Testers rated these slippers highly for warmth
- Received the highest possible rating in compression tests

**Cons:**

- They run small, and can pinch toes
- Not machine-washable — surface spot-clean only

#### Minnetonka Pile-Lined Softsole, #363, \$33

These cozy moccasins were given top marks for warmth, though testers were not as enthusiastic about the too-small fit of the slipper. Compression scores were just average. The sole is designed for indoor wear only. In brown only. Sizes: 5 to 11, whole sizes only. ([moccasinhouse.com](http://moccasinhouse.com))

**Pro:**

- Testers gave the style high marks for warmth and rated it above average for comfort

**Cons:**

- Received below average ratings for fit
- Not machine-washable — surface spot-clean only

#### Minnetonka Cally Slipper #4012, \$33

PHOTO CREDIT: COURTESY OF MINNETONKA

These comfy moccasin slippers performed excellently in compression tests, and testers rated them the most comfortable moccasin of those we tested. The indoor/outdoor sole is great for running out on errands. In two colors: cinnamon and chocolate. Sizes: 5 to 11, whole sizes only. ([moccasinhouse.com](http://moccasinhouse.com))

**Pros:**

- Received the highest possible rating in compression tests
- Testers gave the style generally good ratings for comfort
- Indoor/outdoor sole

**Cons:**

- Received only average ratings for fit, warmth, and appearance
- Not machine-washable — surface spot-clean only

The Good Housekeeping Research Institute gives the three Minnetonka slippers that were tested (Cally, Pile Lined Mule, and Pile Lined Softsole) the thumbs up!
